**1.3 EXECUTIVE SUMMARY**

This report is a summary of the main budgetary issues arising from the financial monitoring process.

The Service Delivery Budget Implementation Plan (SDBIP) projections are compared to the progress made with regards to the implementation of the 2016/2017 Budget, and any material discrepancies are followed up to ensure that the Municipality achieves its strategic objectives as documented in the Integrated Development Plan (IDP).

This is done in accordance with section 54 of the MFMA, which requires the Mayor to consider the section 71 and take appropriate action to ensure that the approved budget is implemented in accordance with the SDBIP.

The municipality reflects a current ratio of 29.83: 1 at 31 May 2017. Based on the current ratio the Municipality is more than capable to pay back its commitments and liabilities as they fall due. The municipality's cash and cash equivalents was R 615 048 415. The municipality had commitments on operating expenditure at the end of May of R18 501 062. Accelerated capital spending is necessary; hence high priority will be given on executive management level to ensure significant improvement until June 2017.

The expenditure was slow during the first semester of this financial year. This resulted in an increase in the funds invested. Due to this the municipality anticipates that the interest on investments is going to increase more than originally budgeted amount, therefore the budget was adjusted with R8 million in the February 2017 Adjustments Budget.

**Reasons for the variances on the Financial Performance (revenue and expenditure):****Revenue by source:****Rental of facilities**

The rental income received was less than anticipated.

**Interest earned- external investments**

The variance is due to the municipality only accounting for the interest when the investments matures.

**Agency Services**

The dept of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement.

**Transfers recognised- operational**

The variance was due the accounting of the revenue from non-exchange transactions in terms of GRAP 23, for the District Funding research initiative.

**Expenditure by type:****Depreciation**

Depreciation was processed after the completion of the annual regulatory audit. It is anticipated that depreciation will be more than budgeted hence the amount was increased with the adjustment budget in February 2017.

The debtors consist mainly of firefighting accounts levied for ad hoc services provided by the Fire Services division. Probability of collection of these amounts is low due to challenges in determining the origin and legal liability. Fire debtors outstanding for more than 181 days, amounting to R2.1 million, was handed over for legal action and further guidance wait on how to proceed. Other debtors refer to small miscellaneous accounts, leases and reimbursement of employee's portion of future medical aid liabilities.

Expenditure against the provincial grants is still very low. Management is fully aware of the fact that the transfers should be utilised and are committed to ensure that the funds are spend to prevent roll-overs. A large payment was made against the Financial Management Grant and expenditure planned for this particular grant is in line with the relevant process / business plans.

Provision for leave, provision for bonuses and actuarial valuations is only done at year-end; however, the intention is to effect the necessary transactions after finalization of the 2015/2016 audit. These expenses normally have a huge impact on the salary budget.

## **2.6 MATERIAL VARIANCES TO THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

Capital Expenditure is well below the expenditure planned in the SDBIP. Management has taken steps to ensure that capital expenditure will improve, including the necessary adjustments that will be made at the adjustments budget.

## **Municipal Finance Management Act No. 56 of 2003**

In the Municipal Finance Management Act it is stated:

### **54. Budgetary control and early identification of financial problems**

- (1) On receipt of a statement or report submitted by the accounting officer of the municipality in terms of section 71 or 72, the mayor must-
  - (a) consider the statement or report
  - (b) check whether the municipality's approved budget is implemented in accordance with the service delivery and budget implementation plan;
  - (c) consider and, if necessary, make any revision to the service delivery and budget implementation plan, provided that revision to the service delivery targets and performance indicators in the plan may only be with the approval of the council following approval of an adjustment budget;
  - (d) issue any appropriate instructions to the accounting officer to ensure-
    - (i) that the budget is implemented in accordance with the service delivery and budget implementation plan; and
    - (ii) that spending of funds and revenue collection proceed in accordance with the budget;
  - (e) identify any financial problems facing the municipality, including any emerging or impending financial problems; and
  - (f) in the case of section 72 report, submit the report to the council by 31 January of each year
  
- (2) If the municipality faces any serious financial problems, the mayor must-
  - (a) promptly respond to and initiate any remedial or corrective steps proposed by the accounting officer to deal with such problems, which may include-
    - (i) steps to reduce spending when revenue is anticipated to be less than projected in the municipality's approved budget;
    - (ii) the tabling of an adjustment budget; or
    - (iii) steps in terms of Chapter 13; and
  - (b) alert the council and the MEC for local government in the province to those problems
  
- (3) The mayor must ensure that any revisions of the service delivery and budget implementation plan are made public promptly.

## EXECUTIVE SUMMARY - MAY 2017

### Introduction

This report is a summary of the main budgetary issues arising from the financial monitoring process.

The Service Delivery Budget Implementation Plan (SDBIP) projections are compared to the progress made with regards to the implementation of the 2016/2017 Budget, and any material discrepancies are followed up to ensure that the municipality achieve its strategic objectives as documented in the Integrated Development Plan (IDP).

This is done in accordance with section 54 of the MFMA, which requires the Mayor to consider the section 71 report and take appropriate action to ensure that the approved budget is implemented in accordance with the SDBIP.

### Summary of the 2016/2017 Budget implementation progress in relation to the SDBIP

The following table summarises the overall position of the capital and operating budgets.

A. Project is completed. Saving is due to the SCM tender process in which the Service Provider tendered a price of R7117 less than the price that the CWDM budgeted for. It is very rare that a Service Provider quotes the exact price that is budgeted for.

B. The project is completed. Savings is due to the following reasons: (1) Drakenstein Municipality provided the Wellington Town Hall for free to the CWDM; (2) The Tourism Staff of the CWDM did all the logistics for both events and thus saved costs that would normally be paid to an external Service Provider.

C. Project completed. Savings due to a cheaper price provided by LTA.

D. 15 SLA's signed and payments are done; project completed.

E. The amount reflected as a overspending exists due to a system error by SAMRAS. A call has been logged by the Budget office to the SAMRAS Service Provider requesting them to make the necessary adjustment on the project expenditure. After the system error has been corrected no overexpenditure will be reflected on this vote. The error will only be corrected by 30 June 2017.

F. Awaiting invoices. Spending will be completed by 30 June 2017.
