**PART B****EXPLANATORY MEMORANDUM ON DRAFT COST CONTAINMENT REGULATIONS INTENDED TO BE MADE IN TERMS OF LOCAL GOVERNMENT: MUNICIPAL FINANCE MANAGEMENT ACT, 2003**

The wider implementation of the Local Government: Municipal Finance Management Act, 2003 (MFMA) in all municipalities and entities is an important element in the roll out strategy to modernise and improve financial management in local government. Linked to this strategy are the fundamental principles of effective and efficient utilisation of public resources in a transparent and accountable manner.

Despite the provisions in the MFMA and the reforms developed over the last 13 years to support the implementation of the MFMA, municipalities and municipal entities continue to spend public funds and municipal resources on non-priority items. More often than not this results in a diversion of public funds from core service delivery to other expenditures resulting in dissatisfaction by communities and delays in service delivery.

Government has therefore committed in the Medium Term Strategic Framework for 2014 – 2019 to urgently implement cost saving measures across all three spheres of government to assist in re-prioritizing expenditure and free up resources that can be targeted towards service delivery. These measures introduced are also intended to eliminate wastage of public resources on non-service delivery items. This will be undertaken through advocacy, strengthening the legal and policy prescripts and frameworks aimed at cost containment and ensuring the implementation thereof by municipalities and municipal entities.

The Minister of Finance has also pronounced during the February 2016 Budget Speech and the October 2016 Medium Term Budget Policy Statement that the National Treasury will issue regulations on cost containment measures for local government. The initial cost containment measures were introduced through MFMA Circular. Additional measures will also be taken to ensure a transparent tendering system by ensuring that value for money is attained through the revised procurement process. Similar measures have also been introduced in national and provincial government in terms of the Public Finance Management Act 1 of 1999.

Over the last 4 to 5 years, the Auditor-General's General Report on Local Government Audit Outcomes highlighted the extent of wastage of public resources. This was also observed through various publications in the print media and other government publications. Weak governance as well as the significant increase in the number of municipalities incurring unauthorised, irregular as well as fruitless and wasteful expenditure, were also highlighted as areas of concern.

Building on the MFMA Circular, the National Treasury in association with other stakeholders, have drafted regulations that will promote the cost containment measures introduced in a number of spending areas.

Section 168(1)(b) and (p) of the MFMA provides that the Minister may regulate financial management and internal control and generally, any other matter that may facilitate the enforcement and administration of the Act, respectively. The object of the draft Regulations is to ensure that the resources of municipalities and municipal entities are used effectively, efficiently and economically (regulation 2). The Regulations will apply to all municipalities and municipal entities (regulation 3).

Regulation 1 contains the definition of terms that are used in the regulations. Regulation 4 deals with the establishment of cost containment policies including the principles applicable to such policies.

Regulations 4 to 13 contain the actual cost containment measures to be implemented by municipalities and municipal entities. These measures include:

- Principles around appointment of consultants to perform municipal functions and assessment to be undertaken by municipalities and municipal entities before appointing consultants;

- Procurement of mayoral vehicles. The regulations introduce a ceiling in terms of the value of the vehicles to be procured and principles in terms of management of such vehicle by the municipalities and municipal entities;
- Travel and subsistence allowance. This section of the regulations provides the thresholds for purchasing air tickets and hiring of vehicles. The intention with this specific measure is to ensure that institutions actually realise the discounts which have been negotiated at National Government level. These thresholds will contribute towards institutions achieving cost savings on their travel and accommodation budgets;
- Prohibition on issuance of credit or debit cards linked to municipal bank accounts to officials or public office bearers;
- Prohibition on using municipal funds for specific functions which include, amongst others, spending on catering for internal meetings only attended by officials, and social, farewell or team building activities. This section also prohibits the utilisation of municipal funds on alcoholic beverages;
- The regulations also make it mandatory for institutions to procure vehicles, cell phone and other related assets via the transversal contract negotiated at National Government level. This will ensure that there are cost savings and benefits passed to municipalities on all such items;
- The regulations also introduce a monetary threshold for conference fees which include the attendance of both local and international conferences;
- The regulations are intended to reduce excessive spending on office furniture and equipment;
- Municipalities and municipal entities are also encouraged to ensure that proper processes are followed when dismissing and suspending officials, this minimise unnecessary legal costs. Institutions are also encouraged to manage their expenditure on leave and overtime benefits; and
- The regulations make it mandatory for municipalities to conduct threat assessments before approving any security measures for councillors or officials.

Regulation 4 introduces consequence management aspects for non-adherence to the regulations. Non-compliance with these measures must be investigated for financial misconduct in terms of the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

Regulation 5 provides the framework for disclosure of actual cost savings achieved by institutions in their annual reports, this improve transparency.

Regulation 6 contains the short title and the commencement date of the regulations.

These draft regulations therefore propose to provide a framework that is consistent with the provisions of the MFMA. The effective implementation of the regulations is intended to ensure that municipalities and municipal entities achieve value for money in utilising public resources to deliver municipal services. It is the intention that the Regulations would become effective on 01 July 2018.

Comments received during the consultation process will be considered and processed with a view to addressing any shortcomings.
