PRACTITIONER

REFERENCE NUMBER : 20180601023058

DATE : 23 NOVEMBER 2017

WATER AND SANITATION SUBSIDIES

The attached list, as per Municipal areas, reflects the applications received for the subsidisation of toilets, bathrooms and provision of running water in farm labourers housing. These subsidies are availed to landowners as an option to assist and encourage them to upgrade and improve sanitation at farm labourers housing

Applications are evaluated by the Environmental Health Practitioner against the applicable water and sanitation standards and prioritised according to the urgency of the needs.

The number of applications received exceeds the available budget, and subsequently not all the applications will be receiving subsidies in the financial year 2018 /2019.

In cases where approved applicants are unable to utilise the subsidy for financial or operational reasons this subsidy will be made available to the next applicant on the list. This will ensure efficiency and the full utilisation of the available budget to the benefit of the community.
