1. INTRODUCTION 265

The Service Delivery and Budget Implementation Plan (SDBIP) seek to promote municipal accountability and transparency and is an important instrument for service delivery and budgetary monitoring and evaluation. The SDBIP is a partnership contract between the administration, council and community, which expresses the goals and objectives, set by the council as quantifiable outcomes that can be implemented by the administration over the next financial year as illustrated in Diagram 1.

Section 1 of the MFMA defines the SDBIP as: A detailed plan approved by the mayor of a municipality in terms of section 53(1) ©(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include (as part of the top-layer) the following:

- (a) Projections for each month of -
 - · Revenue to be collected, by source, and
 - Operational and capital expenditure, by vote;
- (b) Service delivery targets and performance indicators for each quarter.

In terms of National Treasury's Circular No.13 the SDBIP must provide a picture of service delivery areas, budget allocations and enable monitoring and evaluation. It specifically requires the SDBIP to include;

- · Monthly projections of revenue to be collected for each source;
- Monthly projections of expenditure (operating and capital) and revenue for each vote;
- · Quarterly projections of service delivery targets and performance indicators for each vote;
- Information for expenditure and delivery; and
- · Detailed capital works plan.

In terms of Sections 69(3)(a) and (b) of the MFMA the accounting officer of a municipality must submit to the Mayor within 14 days after the approval of an annual budget, a draft SDBIP for the budget year and drafts of the annual performance agreements as required in terms of section 57(1)(b) of the Municipal Systems Act (MSA) for the municipal manager and all senior managers. Furthermore, according to Section 53(1)(c)(ii) and (iii) of the MFMA, the Executive Mayor is expected to approve the SDBIP within 28 days after the approval of the budget.

This coincides with the need to table at Council, drafts of the annual performance agreements for the municipal manager and all senior managers as required in terms of Section 57(1)(b) of the MSA. The budget implementation section of the SDBIP is categorised in terms of Votes as prescribed by the MFMA, in case of the CWDM, Votes indicate a budget allocation for Core Administration as per Strategic Objective.

2. RISK MANAGEMENT

266

The Cape Winelands District Municipality is committed to effective risk management in order to achieve our vision, service delivery on our core business and strategic key objectives to ensure appropriate outcomes. In the course of conducting our day-to-day business operations, we are exposed to a variety of risks. These risks include operational and other risks that are material and require comprehensive controls and on-going oversight.

To ensure business success the CWDM have adopted an enterprise-wide integrated positive approach to the management of risks. By embedding the risk management process into key business processes such as planning, operations and new projects, management will be better equipped to identify events affecting our objectives and to manage risks in ways that are consistent with the approved risk appetite. The Cape Winelands District Municipality will not only look at the risk of things going wrong, but also the impact of not taking opportunities or not capitalizing on municipal strengths. By adopting this positive approach and taking into consideration the Integrated Developmental Plan it will enable the Municipality to fulfil its performance expectations.

The Council recognizes the wide range of risks to which the Cape Winelands District Municipality is exposed. At the Cape Winelands District Municipality, we are committed to the effective management of risk in order to achieve our goals and objectives, as well as converting risk into opportunities that create value for our stakeholders. It is therefore a strategic objective to adopt a process of integrated risk management that will assist the Cape Winelands District Municipality in meeting its key goals, most specifically:

- · To align the risk-taking behaviour to better achieves the goals and related objectives;
- · To protect the reputation and brand name Cape Winelands District Municipality world-wide;
- · To promote a risk awareness ethic in all Departments/Directorates and improve risk transparency to stakeholders;
- · To maximise (create, protect and enhance) stakeholder value and net worth by managing risk that may Impact on the development and success indicators; and
- · To identify risk improvement opportunities that will maximise business opportunities and sustainable delivery of services and programs.

The table below shows the three strategic objectives (what we want to achieve) and related strategic risks (what prevents us from reaching the outcome):

| | STRATEGIC OBJECTIVE | | TOP STRATEGIC RISKS |
|----|--|----------------|---|
| 1. | Creating an environment and forging partnerships that ensure social and economic development of all communities, including the empowerment of the poor in the Cape Winelands District. | 1. 2. 3. | Financial Viability of the Municipality Lack of business continuity Human Resource capacity constraints |
| 2. | Promoting sustainable infrastructure services and a transport system which fosters social and economic opportunities. | 4. 5. | Budget Constraints Climate Change |
| 3. | Providing effective and efficient financial and strategic support services to the Cape Winelands District Municipality. | | |

These strategic objectives will form the basis of the municipality's sustainable long-term strategy in its five-year IDP for 2017/18 – 2021/22. Risk manifest as negative impacts on goals and objectives or as missed opportunities to enhance institutional performance. Stakeholders expect Municipality's to anticipate and manage risks in order to eliminate waste and inefficiency, reduce shocks and crises and to continuously improve capacity for delivering on their institutionalised mandates. Risk is therefore an event, potential or real, that could have an impact on the institution achieving its objectives. It is also apparent that risk is measured in terms of the impact that it would have on the achievement of objectives and the likelihood of the risk materialising.

3. MONTHLY PROJECTIONS OF REVENUE TO BE COLLECTED PER STRATEGIC OBJECTIVE

CONCLUSION

278

The SDBIP provides an excellent basis for the Councillors of the CWDM to monitor the implementation of service delivery programmes and initiatives across the District. The scorecard in the SDBIP presents a clear mandate to the Councillors in terms of playing their oversight function. Regular reports are presented to the Section 79 Committees in terms of the commitments made in departmental service delivery and budget implementation plans.

Administratively, the SDBIP facilitates proper monitoring of performance by Senior Managers and Municipal Manager against set targets. The Municipal Manager's commitments in his scorecard will be used by the Executive Mayor and his Mayoral Committee to monitor the progress of the CWDM in terms of implementing programmes and initiatives in the District. Similarly, the Municipal Manager is being provided with a tool to ensure that his direct reports are held accountable for all the key performance indicators as presented in the SDBIP.
