Reasons for the variances on the Financial Performance (revenue and expenditure):

Revenue by source:

Rental of facilities and equipment

The variance is due to a rental agreement that ends 31 August 2019, which amounted to more than anticipated during the budget process.

Agency Services

The Department of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement.

Licences and permits

The variance is due to health certificates amounting to less than anticipated during the budget process.

Other Revenue

The other revenue variance is due to the admin cost for the road agency service being higher than anticipated.

Expenditure by type:

Debt impairment

The variance is due to the debt impairment being processed at year end. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

Depreciation & asset impairment

The variance is due to the depreciation being processed after the completion of the annual regulatory audit. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

Other materials, Contracted services and Transfer and subsidies

The variance is due to the performance of different projects. The detail on the progress of each project can be located on page 31.

Other expenditure

The variance is due to different items, which amounted to expenditure being higher than anticipated.

### Introduction

This report is a summary of the main budgetary issues arising from the financial monitoring process.

This is done in accordance with section 54 of the MFMA, which requires the Mayor to consider the section 71 report and take appropriate action to ensure that the approved budget is implemented in accordance with the SDBIP.
