Reasons for the variances on the Financial Performance (revenue and expenditure):

Revenue by source:

Rental of facilities and equipment

The variance is due to the rental agreements being higher than anticipated during the budget process.

Interest earned - external investments

The variance is due to the municipality only accounting for the interest when the investments matures.

Agency Services

The Department of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement.

Licences and permits

The variance is due to health certificates issued being lower than anticipated during the budget process.

Expenditure by type:

Depreciation & asset impairment

The variance is due to the depreciation being processed after the completion of the annual regulatory audit. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

Other materials, Contracted services and Transfer and subsidies

The variance is due to the performance of different projects. The detail on the progress of each project can be located on page 30.

Other expenditure

The variance is due to different items, which amounted to expenditure being lower than anticipated.
