#### Reasons for the variances on the Financial Performance (revenue and expenditure):

#### Revenue by source:

#### Interest earned - external investments

The variance is due to the municipality only accounting for the interest when the investments mature. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

#### **Agency Services**

The Department of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

#### Transfers and subsidies - Capital

The variance is due to assets being recognised earlier than anticipated during the budget process. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

#### **Expenditure by type:**

#### **Remuneration of Councillors**

The variance is due to the timeframe between the Municipal Elections and the reconstitution of the CWDM Council. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

#### Other materials, Contracted services and Transfer and subsidies

The variance is due to the performance of different projects. The detail on the progress of each project can be located on page 31.

#### **Transfers and Subsidies**

The variance is due to transfers and subsidies being processed earlier than anticipated during the budget process. The alignment between the actual and budget will be corrected during the Adjustment Budget process.

#### Other expenditure

The variance is due to different items, which amounted to expenditure being lower than anticipated. The alignment between the actual and budget will be corrected during the Adjustment Budget process.
