Reasons for the variances on the Financial Performance (revenue and expenditure):

Revenue by source:

Interest earned - external investments

The variance is due to the municipality only accounting for the interest when the investments matures.

Agency Services

The Department of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement.

Licences and permits

The variance is due to health certificates issued being higher than anticipated during the budget process.

Other revenue

The variance is due to the management fees being lower than anticipated during the budget process.

Expenditure by type:

Loss on disposal of PPE

The variance is due to the disposal of PPE being processed earlier than anticipated during the adjustment budget process.

Other materials, Contracted services and Transfer and subsidies

The variance is due to the performance of different projects. The detail on the progress of each project can be located on page 31.

Other expenditure

The variance is due to different items, which amounted to expenditure being lower than anticipated.
