1.3 EXECUTIVE SUMMARY

This report is a summary of the main budgetary issues arising from the financial monitoring process.

The Service Delivery Budget Implementation Plan (SDBIP) projections are compared to the progress made with regards to the implementation of the 2018/2019 Budget, and any material discrepancies are followed up to ensure that the Municipality achieves its strategic objectives as documented in the Integrated Development Plan (IDP).

This is done in accordance with section 54 of the MFMA, which requires the Mayor to consider the section 71 and take appropriate action to ensure that the approved budget is implemented in accordance with the SDBIP.

The information contained in the report is preliminary, this is due to the fact that the municipality is currently, in terms of s 126 (1) (a) of the MFMA, preparing the annual financial statements for the financial period ended 30 June 2019. The information available for June 2019 is not a true reflection of the financial position of the municipality and may materially change due to year-end journals and processes must still be finalised which will influence the financial results. The latter process alluded to will only be finalised by end August 2019.

Reasons for the variances on the Financial Performance (revenue and expenditure):

Revenue by source:

Licences and permits

The variance is due to health certificates issued, which amounted to more than anticipated during the budget process.

Agency Services

The Department of Transport and Public Works transfers funds every second month, in arrears, in terms of the memorandum of agreement.

Other Revenue

The other revenue variance is due to the admin cost for the road agency service being lower than anticipated.

Expenditure by type:

Employee Related Cost

The variance is due to different items that will be captured during the Annual Financial Statement process.

Other materials, Contracted services and Transfer and subsidies

The variance is due to the performance of different projects. The detail on the progress of each project can be located on page 31.

Other expenditure

The variance is due to different items, which amounted to expenditure being lower than anticipated.
