MUNICIPALITY • MUNISIPALITEIT • UMASIPALA

# **DRAFT**

## **2nd Review 2024/2025**

### **Integrated Development Plan**

The Cape Winelands District Municipality is one of five district municipalities in the Western Cape and is bordered all the other Districts and the City of Cape Town. The Cape Winelands stretches across an area of more 22 000 square kilometers of fertile valleys, majestic mountains and unique fauna and flora. The district is served by five local municipalities namely, Stellenbosch, Drakenstein, Witzenberg, Breede Valley and Langeberg.

The Cape Winelands District is the second most populous district in the Western Cape after the City of Cape Town, accounting for 13,6% of the Western Cape's population and continues to grow. It is natural therefore that the area is also the second largest center of economic activity in the Western Cape and is not only famous because of its wine.

In fact, the Cape Winelands District is the largest exporter of soft fruit in the Southern Hemisphere, has the most diverse tourism related industry, catering for every need and taste and offers internationally renowned educational institutions, including two, that cater specifically to special education. All this available in as little as a half an hour's drive from Cape Town International Airport.

# Local Municipal Overview

**BREED VALLEY**  
MUNICIPALITY • MUNISIPALITEIT • UMASIPALA

The Breede Valley includes towns such as Rawsonville, De Doorns, Touws River and Worcester. Worcester, approximately 100km from Cape Town, is the main economic node in the Breede Valley municipal area and is well connected through the N1 and the rail network. The Breede Valley municipal area is well known for its scenic beauty, wine industry and other farming activities

**DRAKENSTEIN**  
MUNISIPALITEIT • MUNICIPALITY • UMASIPALA  
A city of **excellence**

The Drakenstein municipal area is well known for its fruit and wine production and processing, as well as its heritage sites and tourist attractions. Paarl is the main service centre and has a rich history and several tourist attractions. Other towns in the municipal area include Wellington, Saron, Gouda, Hermon, Mbekweni and Simondium. These towns primarily serve as service centres for the local agriculture industry. The Drakenstein municipal area is very well connected, with the N1 traversing the area.

The Langeberg municipal area is well known for its wine route (Route 62), which is the longest in the world. The municipal area includes the towns of Robertson, Ashton, Bonnievale, McGregor and Montagu, with Robertson being the main service centre. The towns in the municipal area have a rich history, and the scenic beauty of the area makes it a popular tourist destination

**STELLENBOSCH**  
STELLENBOSCH • PNIËL • FRANSCHHOEK

MUNICIPALITY • UMASIPALA • MUNISIPALITEIT

Towns within the Stellenbosch municipal area include Franschhoek, Stellenbosch, Pniël, Klapmuts, Kylemore, Jamestown, Raithby, Ida's Valley, Cloetesville, Kayamandi and Vlottenburg. The town of Stellenbosch is the main economic node within the municipal area and is the second-oldest town in South Africa. The Stellenbosch and Franschhoek areas are well known for their fruit- and wine- production activities, and cultural and heritage attractions. Stellenbosch is also considered a university town, as it houses Stellenbosch University, which attracts both national and international students

The Witzenberg municipal area consists of five towns, namely Ceres, Tulbagh, Wolseley, Op die Berg and Prince Alfred Hamlet. These towns provide goods and services for the local agricultural industry, with some agro-processing also taking place. The Witzenberg municipal area is well known for producing export- quality deciduous fruit, vegetables and wine, and has also created a footprint as a family and adventure tourist destination

# WHAT IS THE INTEGRATED DEVELOPMENT PLAN?

## What is Integrated Development Planning?

Integrated Development Planning is a process through which municipalities prepare a strategic development plan, for a five-year period. The Integrated Development Plan (IDP) is a product of the integrated development planning process. The IDP is a principal strategic planning instrument which guides and informs all planning, budgeting, management and decision-making in a municipality.

## What is the legal status of an IDP?

According to the Municipal Systems Act of 2000 all municipalities must undertake an integrated development planning process to produce integrated development plans (IDPs). As the IDP is a legislative requirement it has a legal status, and it supercedes all other plans that guide development at local government level.

## Why is it necessary to do IDP's?

Preparing an IDP is a legal requirement in terms of the Municipal Systems Act (MSA), however that it's not the only reason why municipalities must prepare the plans. Municipalities have been awarded major developmental responsibilities to ensure that the quality of life for its citizens is improved. The role of local government includes provision of basic services, creation of jobs, promoting democracy and accountability and eradication of poverty. Preparing and having the IDP therefore enables the municipality to be able to manage the process of fulfilling its developmental responsibilities.

- 3.2 To strengthen and promote participative and accountable IGR and governance.
- 3.3 To facilitate and enhance sound strategic support services

*The Cape Winelands District Municipality is currently in the process of reviewing its strategic objectives, pre-determined objectives and KPIs. The information currently shown in this document is therefore in draft format and will be finalised towards the legislative deadlines in May 2024 (5-year Organisational Scorecard in IDP) and June 2024 (SDBIP).*

Emanating from the strategic discussions in November 2023 as well as a follow-up in January 2024, the following strategic objectives are currently in draft format:

**1. Provide sustainable strategic financial management and support services.**

*Outcomes: The municipality aims to create sustainable sources of funding and management thereof, ensuring long-term financial viability.*

*Resources are efficiently used to maximise contributions to LED and support services.*

**2. Foster good governance processes as prescribed by legislation and best practice.**

*Outcomes: A foundation for effective governance that promotes political and administrative stability, a clean audit, improved ethical culture and functional oversight, has been established and is adhered to.*

**3. Provide sustainable infrastructure services and a transport system that enables social and economic opportunities.**

*Outcomes: Infrastructure services and resources are financially supported and measured.*

*Municipal infrastructure and transport systems are developed in a resilient and well-functioning manner as to result in longevity, and a safe and secure communal environment facilitating social and economic opportunities.*

**4. Monitor and promote a clean, healthy and safe living environment for all residents of the CWDM area.**

*Outcomes: All residents have equal access to basic service delivery.*

*Resources, including stable infrastructure, technological and spatial resources, as well as water security, are efficiently utilized to ensure the long-term well-being and unity of the community.*

**5. Provide disaster management services to the district.**

*Outcomes: Emergency response plans are well-established and regularly tested, enabling an improved response to incidents, which creates stronger relationships within the district.*

*A well-co-ordinated fire services department with easier access to the public, establishing a safe community.*

**6. Establish a skilled workforce and performance orientated administration to promote the growth and development of the organisation.**

*Outcomes: A capable and knowledgeable workforce that positively contribute and successfully provide high-quality services to the community, and become enablers to inspire development.*

*Consequence/ development management and a performance management system embedded into the functioning of the municipality in order to promote optimal performance.*

**7. Facilitate partnerships that cultivate economic growth and development throughout the district**

*Outcomes: Achieving an enabled environment by creating inclusive and equitable economies, and developmental growth through the economic benefits generated from new markets, innovation, and partnerships.*

*Further discussions with the various departments and divisions will be taking place in April 2024, to finalise the IDP organisational scorecard as well as the 2024/2025 SDBIP.*

- More capacity to be created in form of service providers
- At least 2 interns to be appointed, to assist with administrative and logistical arrangements

## DIVISION

# Legal Services

### **Predetermined objective:**

To facilitate and enhance sound strategic support services.

### **Legislative context for division:**

Legal Services' main function is to provide an effective and efficient legal support service to Council and the administration in order to enable it to deliver on its constitutional mandate and to manage and limit the legal risks of the District Municipality. Legal Services play a major role in ensuring that the decisions taken by Council and its Structures, as well as the Administration, are legally compliant and that legal support is available to the various line departments as and when they require it. This inevitably decreases the legal risks to which the District Municipality is exposed in its decision-making bodies which ultimately promotes service delivery.

## DIVISION

# Internal Audit

Internal Audit is an independent, objective assurance and consulting activity, designed to add value and improve the organisation's operations.

It helps the organisation to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, controls, and governance processes – Institute of Internal Audit (IIA).

### **Predetermined objective:**

To strengthen and promote participative and accountable governance.

### **Legislative context for division:**

#### **Municipal Finance Management Act**

*Section 62 of the Local Government: Municipal Finance Management Act, 2003 (Act No 56 of 2003) (MFMA) determines that the Accounting Officer (AO) of a municipality must take all reasonable steps to ensure that it has and maintains:*

- Effective, efficient, and transparent systems of financial and risk management and internal control; and
- An Internal Audit function, operating in accordance with prescribed norms and standards.

*Section 165 of the MFMA determines that each municipality must have an independent Internal Audit unit that must:*

- Prepare a risk-based audit plan and an internal audit programme for each financial year; and
- Advise the Accounting Officer and report to the Audit and Performance Committee (APC) on the implementation of the Internal Audit Plan.

#### **Municipal Systems Act**

*Section 45 of the Local Government: Municipal Systems Act, 2000 (Act No 32 of 2000) (MSA) determines that the results of performance measurements must be audited as part of the municipality's internal audit processes.*

#### **International Standards for the Professional Practice of Internal Auditing**

The core principles for the Professional Practice of Internal Auditing, the Code of Ethics, and the International Standards for the Professional Practice of Internal Auditing (Standards) are mandatory.

1. Contracted Services (Update of Internal Audit Policies and External Quality Assurance Assessment).

The new Global Internal Audit Standards were issued on 9 January 2024, and will take effect on 9 January 2025. During a one-year transition period, the previous version, the International Standards for the Professional Practice of Internal Auditing, released in 2017, remains authorised for use.

R1 500 000.00

The Internal Audit Division is tasked with updating all policies affected by the new Global Standards. To accomplish this, the services of a Service Provider will be engaged to compile and revise documents such as the Internal Audit Strategy (a requirement under the new standards), Combined Assurance Framework, Internal Audit Manual, Methodology, and the Internal Audit Charter, among others.

In light of the issuance of the new Global Standards, the Internal Audit Division must undergo an External Quality Assurance assessment before the new standards take effect. External assessments are required to be conducted at least once every five years by a qualified, independent assessor or assessment team from outside the organisation.

**Challenges:**

Capacity Constraints – Operating as a small unit poses significant challenges. The workload has consequently escalated within a highly intricate environment, necessitating enhanced capacity for establishing and executing risk-based plans, aligning internal audit activities with the municipality's objectives, focusing on municipality-exposed risks, and formulating a strategic audit plan guided by a logical process. The Internal Audit division faces substantial workload burdens, compounded by extensive administrative responsibilities that could be efficiently managed at a clerical level. Internal audit stands as one of the municipality's most crucial management tools, offering independent assurance and value-added services. When adequately resourced and objectively operated, internal audit furnishes management with assurance concerning the efficacy of internal control systems, risk management, and governance processes.

## DIVISION

# Municipal Health Services

### **Predetermined objective:**

Provide a comprehensive and equitable Municipal Health Services including Air Quality Management throughout the CWDM.

### **Legislative context for division:**

Section 32(1) of the The NATIONAL HEALTH ACT, 2003c(Act 61 of 2003) determines that every metropolitan and district municipality must ensure that appropriate municipal health services are effectively and equitably provided in their respective areas.

### **Current state of function**

MHS has a well equipped and staffed function although shortcoming have been identified in terms of communication, transport, and staffing ratios.

### **Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)**

To have a well equipped and fully functional function in line with national norms and standards with adequate communication tools in place and adequate safe and reliable transport for all staff members.

# Fire Services

### Predetermined objective:

Effective planning and coordination of specialized fire-fighting services throughout the CWDM.

### Legislative context for division:

- Schedule 4 Part B of the Constitution of the Republic of South Africa Act 108 of 1996 assigns the function Fire Fighting Services to Local Governments.
- The Fire Brigade Act 99 of 1987 provides for the establishment, maintenance, employment, co-ordination and standardization of Fire Brigade Services; and for matters connected therewith.
- 84.(1).(j). of the Municipal Structures amended Act 33 of 2000 further mandates a District Municipality to provide Fire Fighting Services in its area as whole which includes –
  - (i) Planning, co-ordination and regulation of Fire Services
  - (ii) Specialised Fire Fighting Services such as mountain, veld and chemical fire services
  - (iii) Co-ordination of the standardisation of infrastructure, vehicles, equipment and procedures
  - (iv) Training of Fire Officers

## Current state of function

### Human Capital:

The Cape Winelands Fire Services has a permanent staff compliment of 58 members. The Service consists of the following Sections:

- Fire Services Support which has 7 staff members.
- Fire Services Training has 1 staff member.
- Fire Services Operations has 51 staff members.

The shortage of staff is complimented by reservists and students.

### Infrastructure:

Cape Winelands has a major radio network which covers an area of ± 22 000 km<sup>2</sup>, but 100% coverage is not always guaranteed due to the mountainous terrain. It has a control room in Stellenbosch for the taking of emergency calls, recording callers' information and dispatching resources. There are 5 Fire Depots located throughout the District which houses operational personnel, fire fighting vehicles and equipment. The Fire and Rescue Training Academy is accredited by SAESI/IFSAC to conduct internationally recognised courses and provides basic and advance training for fire personnel.

### Fire Fighting Resources:

The Fire Services has a substantial compliment of firefighting and HAZMAT vehicles to ensure effective and efficient service delivery. It also contracts helicopters and ground firefighting teams annually to assist during the peak veld fire season.

### Mutual Aid Agreements:

The Fire Services have standards and protocols for providing the communities with an effective fire service across jurisdictional and functional boundaries through mutual aid agreements. Cape Winelands District Municipality have Mutual Aid agreements with its Local Municipalities and neighbouring Districts, Western Cape Government and the Winelands Fire Protection Association. They will assist our Fire Service at Major Incidents and when we experienced a high number of fires or major fires and our resources are stretched to the limit.

## Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

### Human Capital:

The revised organisational structure must be approved, job descriptions drafted in line with the staffing regulations, post be at TASKED, funded and filled. The reservists programme to be continued to provide for an accredited training opportunity and skill for unemployed youth in our community, so that they are more employable for the Fire and Rescue industry throughout the world.

### Infrastructure:

- An improved radio network with at least 85% coverage, that is compatible with other role players within the Western Cape Province.
- Revamping the control room in Stellenbosch to an Emergency Communication Centre that serves the entire Municipality and our community.
- At least Nuiwedrift Fire Depot is upgraded and repaired.
- The training simulators must be in place and our accreditation maintained and expanded in order to meet the Local Government staffing regulations and upskill Fire Services personnel throughout the District and those of our partners.

### Fire Fighting Resources:

It has been proven that an integrated multi-disciplinary response to veld and mountain fires are most effective, to save lives, livelihoods and keep damages to property to a minimum.

Therefore, the compliment of Fire Services vehicles must be well maintained and replaced when it becomes redundant, and budget must be secured for aerial resources and ground firefighting teams.

### Mutual Aid Agreements:

Agreements are regularly reviewed and maintained to ensure that assistance is available when required, thus ensuring service delivery to our Community.

18. Sport, Recreation and Culture	Sports Statistics have shown that sport and recreation participation plays a big role in the decrease of the crime rate and crime activity in communities who regularly participate in sport and recreation. Community based mass participation recreation, cultural and sports development programmes focus more non-competitive fun rather than competitive sport so as to create and build social cohesion among youth and in communities. The objectives of these programmes are to promote social development, youth empowerment, social cohesion and community upliftment. Sports, recreational and cultural programmes provide opportunities for vulnerable groups to participate in mass participation programmes. It allow children, families, senior citizens, disabled, men and women to participate in and attend numerous events that would have otherwise been denied.	R3 307 410
19. Skills development	Skills development is identified as one of the priority needs for sustainable development in rural communities within the Cape Winelands District Municipality. Violence, social isolation and low education levels makes young unemployed women more vulnerable and increases their risks of sexual exploitation. Economic empowerment opportunities reduce conditions of vulnerability and improve the resilience of young women. Young people and women are the important focus and a priority because the lack of skills development contributes to increasing unemployment rate amongst them in rural areas. Skills development programmes enhance the employability and SMME development amongst women and youth. The municipality identify training needs in partnership with B-municipalities, Department of Social Development and NGOs and rotate amongst the B-municipal areas each year.	R300 000

# S02 Technical Services

## DIVISION **Roads**

### **Predetermined objective:**

To comply with the administrative and financial conditions of the Western Cape Government roads agency function agreement.

### **Legislative context for division:**

- CWDM is performing an Agency-function for WCG in terms of a Memorandum of Agreement.
- Under this mandate CWDM maintains and does limited construction on the 1232km surfaced roads and 3127km gravel roads within its boundaries.
- Under this agreement WCG will supply the fleet and vehicles, with CWDM providing the staff and buildings.
- An annual budget is provided to CWDM by WCG to perform its mandate, with CWDM claiming expenditure monthly.
- CWDM is paid a %-fee to provide supporting services i.t.o. HR, SCM, etc

### Current state of function

Due to a shortage of operators, drivers, graders, water trucks and material from distant commercial quarries, the Roads division is currently struggling to execute its maintenance mandate.

Over the last year, continuous floods in the area added to the operational challenges.

### Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

Have the manpower, fleet and materials to, at a predetermine schedule, maintain the gravel and tar road network in the region.

To provide a service level to the public and farmers that will allow them to travel safe and get produce to markets at acceptable quality.

Have minimum complaints on poor gravel roads.

### Planned projects for 2024/2025 (take IDP needs inconsideration)

1. Fencing of borrow pits

### Purpose of project

To allow mining of borrow pits and to regravell nearby roads at a cheaper than commercial cost

### Allocated budget

Tenders to be funded from Road budget – R400 000

### Major operation items for 2025/2026 – 2026/2027

1. Start boreholes in road reserve programme

### Purpose of item

To start with wet blading which will allow gravel roads to perform better and last longer between blading cycles

### Allocated budget

Tenders to be funded from Road budget – R1 000 000 annually for 24/25 – 26/27

### Sector Plan

3-Year BUSINESS Plan (2023 – 2026)

### Review date

July 2026

### Challenges:

Limited budgets allocations from Western Cape Government may lead to postponement of projects.

## DIVISION

# Project Management

### **Predetermined objective:**

To implement sustainable infrastructure services.

### **Legislative context for division:**

- **District Municipality**

Section 84 of the Municipal Systems Act (Act 32 of 2000) assigns a function of waste disposal to District Municipalities. Not all District Municipalities are fulfilling this role. However, when the need arises for a Regional Landfill, the District Municipality must perform this role.

- **Local Municipalities**

The NEM:WA (Act 59 of 2008) requires local authorities to implement mechanisms for the provision of waste collection services including collection, storage and disposal. Local authorities are also required to facilitate recycling and waste diversion from landfill and manage waste information appropriately.

### Current state of function

Currently the Waste Function lies with the Local Municipalities but due to the state of the airspace of the Landfill Sites, which have reached the end of their lifespan and needs to be closed, it was important for the District Municipality to start with the process of establishing a Landfill Site to accommodate Langeberg -, Breede Valley - and Witzenberg Municipalities. The implementation of the project was delayed several times due to objections and legal processes pertaining to the said objections.

### Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

CWDM’s objective is to implement the Landfill Site within the 5-year cycle and to be operational around March 2025. CWDM also foresees the implementation of a Waste Awareness Programme within all the 5 Local Municipalities to assist them with minimization of waste to landfill within the next financial year.

### Planned projects for 2024/2025 (take IDP needs inconsideration)

1. Construction of Regional Landfill Site

### Purpose of project

The project will consist of the construction of landfill infrastructure as well as Cell 1 to assist the Langeberg -, Breede Valley - and Witzenberg Municipalities with the solid waste function as all these municipal current landfill sites have a lack of capacity and must be closed down.

### Allocated budget

R 20 000 000 (2024/25)  
R 87 000 000 (2025/26)

### Major operation items for 2025/2026 – 2026/2027

1. Operation of Landfill Site

### Purpose of item

The CWDM did a Section 78 investigation and as a result, the new Landfill Site will be managed and operated by an external service provider due to capacity and skill shortages in the Technical Services Department.

### Allocated budget

This tender is still in evaluation phase and the cost will be determined with the awarding of the tender.

### Sector Plan

Integrated Waste Management Plan

### Review date

April 2024

### Challenges:

None at this stage.

## DIVISION

# Regulation Passenger Transport Services

### Predetermined objective:

To increase levels of mobility in the whole of the Cape Winelands District area.

### Legislative context for division:

- NATIONAL LAND TRANSPORT ACT (NLTA) ACT 5 OF 2009**

In terms of the National Land Transport Act (NLTA), Act 5 of 2009 requires all Planning Authorities to compile an Integrated Transport Plan, which is a specific sector plan that feeds into the Integrated Development Plan (IDP) of the relevant authority. The DITP also supports and forms part of the development of the Provincial Land Transport Framework (PLTF).

### Current state of function

The division is functioning well. However, there is a challenge of Shortage of Personnel.

### Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

To have enough capacity to perform all the duties of the division.

**Planned projects for 2024/2025  
(take IDP needs inconsideration)****Purpose of project****Allocated budget**

# SO3 Financial and Strategic Support Services

## DIVISION

# Administrative Support Services

### **Predetermined objective:**

To facilitate and enhance sound strategic support services.

### **Legislative context for division:**

- Provide administrative support services to the Council and Mayoral Committee of the Cape Winelands District Municipality, established in terms of the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998), as well as any other statutory committees.
- Assist the Municipal Manager with the executive of administrative functions in terms of section 55 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000), where applicable.
- Manage the records of the Cape Winelands District Municipality in a well-structured record keeping system in terms of section 9 of the Provincial Archives and Records Service of the Western Cape Act, 2005 (Act No. 3 of 2005).
- Ensure that the District Municipality and its employees comply with the requirements imposed by the Protection of Personal Information Act, 2013 (Act No. 4 of 2013).

### Current state of function

Currently a hybrid administrative model in place

### Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

Paperless committee system

## INFORMATION ON RECORDS MANAGEMENT

Section 9 of the Provincial Archives and Records Service of the Western Cape Act, 2005 (Act No. 3 of 2005) requires the Cape Winelands District Municipality to manage its records in a well-structured record keeping system, and to put the necessary policies and procedures in place to ensure that its record-keeping and records management practices comply with the requirements of the Act. Information is a resource of the same importance to good management as other standard resources like people, money and facilities. The information resources of the Cape Winelands District Municipality must therefore be managed as a valuable asset. Appropriate records management is a vital aspect of maintaining and enhancing the value of this asset.

Records management policy documents of the Cape Winelands District Municipality are developed in accordance with the Provincial Archives and Records Service of the Western Cape Act, 2005 (Act No. 3 of 2005) as well as to the National Archives and Records Service of South Africa Act (Act No. 43 of 1996). In order to support continued service delivery and provide the necessary accountability, the District Municipality should create and maintain authentic, reliable and usable records.

Sound records management is fundamental for good governance and effective and efficient administration. It also provides a basis for accountability and protects the rights of individuals. The Cape Winelands District Municipality must ensure that the integrity of the records is protected for as long as they are required as evidence of business operations by managing the information resources for good records management practices stipulated in the legislation.

All personal information provided to the Registry will thus not be distributed to third parties and will be used only for the benefit of the Cape Winelands District Municipality and for the purposes it was collected for. In addition, all personal information will be filed and stored securely in an appropriate filing facility which will not be accessible to any unauthorised person and digital copies of personal information will be safeguarded by a variety of native security mechanisms. Once the personal information is no longer required, it will be destroyed according to the prescribed and approved retention schedules. Records management policy documents also provide the mandate, mission and objectives of the District Municipality to ensure appropriate physical care of records.

Management has a responsibility to ensure that Cape Winelands District Municipality creates and have access to complete and credible information resources to enable the decision-making process to be in the best interest of the public. Information is one of the key resources required to run an efficient organization.

For example, well-organized records:

- (a) Enable an organization to find the right information easily and comprehensively.
- (b) Enable the organization to perform its functions successfully and efficiently and in an accountable manner.
- (c) Support the business, legal and accountable requirements of the organization.
- (d) Ensure the consistent delivery of services.
- (e) Support and document policy formation and administrative decision-making.
- (f) Provide continuity in the event of a disaster.
- (g) Protect the interest of the organization and the rights of employees, clients and present and future stakeholders; and
- (h) Support and document the organization's activities, development and achievements.

## DIVISION

# Supply Chain Management

### **Predetermined objective:**

To facilitate and enhance sound financial support services.

### **Legislative context for division:**

The legal regulation of public procurement is constitutionalised. Section 217(1) of the Constitution provides that organs of state must contract for goods or services in accordance with a system that is fair, equitable, transparent, competitive and cost-effective.

Subsection 217 (1) does not prevent the organs of state referred to in that subsection from implementing a procurement policy providing for—

- (a) categories of preference in the allocation of contracts; and
- (b) the protection or advancement of persons, or categories of persons, disadvantaged by unfair discrimination.

Section 217(3) stipulates that National legislation must prescribe a framework within which such a policy must be implemented.

The procurement principles enunciated in the Constitution have been given further legislative impetus by, amongst others, section 112(1) of the Municipal Finance Management Act, 2003 which provides:

“The supply chain management policy of a municipality must be fair, equitable, transparent, competitive and cost-effective and comply with a prescribed regulatory framework for municipal supply chain management”.

The same principles are repeated in the Municipal Supply Chain Management Regulations, 2005 which require the accounting officer to develop an effective and efficient supply chain management system that is fair, equitable, transparent, competitive and cost effective.

## Current state of function

Administrative, rigid and reactive supply chain management system operating in isolation of the broader strategic planning and management of the municipality.

## Desired state (This section refers to your desired state or position you would like the division to be in at the end of 5-year cycle)

Having a Supply chain management (SCM) system that that contributes to efficient, effective and economical spending of municipal budgets, and achieving critical outputs and outcomes identified in the Integrated Development Plan.

### Challenges:

- Capacity constraints to effectively implement legislative changes and enhanced operational initiatives relevant to the supply chain management environment.
- Complex, complicated, fragmented, and inconsistent regulatory requirements
- Undesirable Level of Demand Planning
- Lack of Innovative tools and technology

Sir,

**FINANCIAL ALLOCATION TOWARDS BREEDE VALLEY MUNICIPALITY FOR THE 2024/2025 FINANCIAL YEAR**

1. This communiqué serves as a notification to enable Breede Valley Municipality to include allocations from the Cape Winelands District Municipality in their budget and to plan effectively for the spending of such allocations.
2. The Cape Winelands District Municipality intends to provide capacity and support for the local municipalities within its area of jurisdiction. Additional provision has been made in the 2024/2025 Medium Term Revenue Expenditure Framework for an allocation towards **Breede Valley Municipality of R500 000.00 (five hundred thousand rand)** as part of its 2024/2025 budget.
3. In view of the above-mentioned, it will be highly appreciated that Breede Valley Municipality provides the Cape Winelands District Municipality with the final business plan for which the allocation will be used. Business plans must be submitted in order to proceed with the transfer, upon which a concomitant Service Level Agreement (SLA) will be concluded, followed by the relevant allocation in the 2024/2025 financial year.

Additional provision has been made in the 2024/2025 Medium Term Revenue Expenditure Framework for an allocation towards **Witzenberg Municipality of R500 000.00 (five hundred thousand rand)** as part of its 2024/2025 budget.
3. In view of the above-mentioned, it will be highly appreciated that Witzenberg Municipality provides the Cape Winelands District Municipality with the final business plan for which the allocation will be used. Business plans must be submitted in order to proceed with the transfer, upon which a concomitant Service Level Agreement (SLA) will be concluded, followed by the relevant allocation in the 2024/2025 financial year.

Yours faithfully

# Chapter 7

## Medium term revenue and Expenditure framework

## Introduction

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. The municipality also strives to deliver sustainable services to its community without overburdening the consumers with excessive tariffs.

The top strategic risks identified by the annual risk assessments can be summarised as follows:

1. Financial viability
2. Inadequate contract management
3. Lack of Business Continuity
4. Climate change
5. Lack of succession planning and talent management
6. Increasing employee costs year-on-year

For each of the above risk areas the municipality has put mitigating measures in place aligned to the specific department in the budget. These measures will be implemented over the MTREF period.

Due to the decreasing Equitable Share Allocation the municipality could not budget for a surplus, which will have a negative effect on its Accumulated Surplus. In addressing the key considerations contained in National Treasury's MFMA Circular 74, the following are highlighted in the budget:

- The municipality cut back on capital and operating expenditure related to the upgrading of rural roads (which is the property of the Provincial Government) to maintain accumulated reserves and ensure long term sustainability of the municipality
- Capital projects were spread out over the MTREF to avoid large fluctuations in spending and ensure that priority is given to projects with high importance
- Tariff increases were kept as low as possible to ensure affordability thereof, whilst keeping in mind the cost of delivering services of a high quality.
- The municipality recognizes the importance of cash reserves and therefore strives to maintain a current ratio of not lower than 2.1 (Current Assets: Current Liabilities)

In view of the aforementioned, the following table is a consolidated overview of the proposed 2023/2024 Medium-term Revenue and Expenditure Framework

**EMPLOYEE RELATED COST:**

Remuneration of Councilors is budgeted for in terms of the Public Office Bearers Act and the approval of the MEC.

**OPERATIONAL COST:**

The decrease in Operational Cost is mainly due to savings identified during the budget process.

**CAPITAL BUDGET**

In terms of the MFMA, the Mayor must at least 90 days before commencement of the new financial year, table a draft budget for consideration. The budget must be approved in May 2023 after the completion of the public participation process. The Annual Budget of a municipality must be prepared in terms of Section 17 of the MFMA. Council's Budget must be in line with the Government's spending priorities. Key legal provisions are to be Strictly Enforced.

All grants, including national, provincial and local allocations, should be included in the 2024/25 budget of the municipality as reflected under both the revenue and expenditure budget components. A three-year capital and operating budgets for 2024/2025, 2025/26 and 2026/27 MTREF period should be prepared. Reporting requirements for conditional grants must be satisfied.

The budget must be tabled for consultation at least 90 days before the start of the Budget year (Section. (16)(2)) of the MFMA. There must be a clear link between the Budget, IDP and Performance Targets. Municipalities are required to seriously assess their revenue situation and financial health for purposes of determining whether or not they have sufficient revenue and adequate financial stability to fund and deliver on their proposed budget.

The Cape Winelands District Municipality will implement a five-year Medium-Term Revenue and Expenditure Framework, aligned to the five-year Integrated Development Plan for the 2023/24 - 2026/27 cycle.

## FUNDING OF THE BUDGET

### Definition of a Reserve:

*A reserve is part of retained earnings set aside for a specified purpose, and hence, unavailable for disbursements.*

The only reserves disclosed in Council's financial statements are the following:

- Capital Replacement Reserve – to finance Property Plant and Equipment
- Revaluation reserve – to offset depreciation on the re-valued portion of building and de-valuation of buildings.

*(Both the above reserves are non-distributable reserves)*

### Definition of a Provision:

*Provisions are made to make future payments towards liabilities that you already have (Future Medical Aid Liability).*

## AREAS OF POTENTIAL SAVING

There is a strong strategic understanding that Cape Winelands District Municipality must exercise its functions as a Planning and Co-ordinating authority and not as an Executing authority. Therefore, these areas of potential savings must be contextualized accordingly:

- Don't spend funds on unnecessary items such as:
  - Catering for meetings between officials and officials and councillors;
  - Excessive traveling; and
  - Replacement of old office furniture still in good condition.
- Save on Salary Bill;
- Co-operational agreements between councils;
- Excessive use of stationery;
- Decrease the use of consultants;
- Attend only necessary congresses; and
- Alienate under-utilized buildings.

# Chapter 8

## Monitoring and Evaluation

The Cape Winelands District Municipality is currently in the process of reviewing its strategic objectives, pre-determined objectives and KPIs.

The information currently shown in this document is therefore in draft format and will be finalised towards the legislative deadlines in May 2024 (5-year Organisational Scorecard in IDP) and June 2024 (SDBIP)

Dear Sir/Madam

## CAPE WINELANDS DISTRICT MUNICIPALITY: 2023/24 ADJUSTMENT BUDGET FOR PROVINCIAL INFRASTRUCTURE INVESTMENT

The *Overview of Adjusted Provincial and Municipal Infrastructure Investment 2023 (OAPMI)* publication (ISBN: 978-0-621-51610-4 of November 2023) follows on the *Main 2023/24 Overview of Provincial Infrastructure Investment (OPMI)*, as published with the 2023/24 MTEF Budget in March 2023. The OAPMI provides an update of provincial infrastructure delivery plans and spending priorities across all the municipal areas of the Western Cape. The Adjustment Budget responds to in-year pressures and challenges in infrastructure delivery, to support the implementation of investment programmes and projects and to mitigate against the risks associated with under-utilised funds.

This letter provides the OAPMI information for your Municipality as published. Your attention is drawn to the fact that infrastructure projects are in various stages of planning and implementation and the information may be subject to change, depending on fiscal constraints and the availability of resources.

**Table 1** provides a summary of the data, while **Table 2** represents an extract from the dataset associated with the OAPMI publication, as provided by Provincial Treasury on 11 December 2023. **Table 3** represents projects in the 2023/24 MTEF Main Budget, that could not be identified in the data for the Adjustment Budget 2023/24. There can be various reasons for these projects to not appear in the Adjustment Budget, such as the completion of a project during 2023, or the shifting of priorities.

If your Municipality needs more information about the projects listed in the Tables, it is recommended that the relevant Departments be contacted directly. The contact details for key Departmental officials can be provided on request.

The data is drawn from the *National Infrastructure Reporting Model (IRM)*, as captured by each Department. It should be noted that monitoring the accuracy of information in the reporting model is ongoing, and continues to receive attention with the aim to progressively improve the accuracy of data.

An overview of the Western Cape Medium-Term Budget Policy Statement and the 2023/24 Adjustment Budget, are available [online](#) on Provincial Treasury's website.

**Key Observations**

From a total of 142 projects applicable to your Municipality, 82 projects represent ongoing projects that could also be identified in the MTEF 2023/24 Main Budget dataset of March 2023. The data shows that 60 projects, not previously included in the Main Budget dataset, are now allocated to the Municipality. There are furthermore 62 projects in the Main Budget dataset which could not be observed in the Adjustment Budget dataset (Table 3). The extract of projects does not reflect categories of projects of Provincial and cross-district scale.
